WELCOME TO GIBRALTAR

A British overseas territory perched on the southern tip of the Iberian Peninsula, it has risen in the ranks as a popular tourist destination over the years for its stunning geological features and unspoiled natural beauty. With its abundant greenery and wildlife, Gibraltar is a place that has inspired legend.

At Gibraltar is the narrow neck that separates Europe from Africa, and the only place where the Atlantic Ocean meets the Mediterranean Sea. Its geographic position makes it a "Gateway to the Mediterranean," The Rock of Gibraltar—once named "Mons Calpe" after one of the mythical "Pillars of Hercules"—is surely this port's most recognizable feature (as it dominates most of the territory) and a site of historical significance.

Plenty of pleasures await curious explorers and their families. You can tour the Gibraltar Museum, which was built on the site of 14th-century Moorish baths and currently exhibits the history of Gibraltar's British rule. Or, elect to enjoy a traditional English tea break at the Caleta Hotel, while drinking in the spectacular views stretching from Spain to North Africa.

As a visitor, you can also take a panoramic ride up the majestic and formidable Rock of Gibraltar in a cable car. The Rock is composed of 426 meters (1,396 feet) of sheer, towering limestone. Gibraltar is home to over 500 species of flowering plants—olive and pine trees being prominent among them. Most of the upper portion of the region encompasses a nature reserve which provides sanctuary and protection for 230 native Macaques (Barbary Macaques), the only wild monkeys found in Europe. They'll occasionally visit the local towns, bringing their mischief with them and drawing the attention of curious tourists.
