## A STATE OF SURPRISE

### AROUND EVERY CORNER LIES AN UNPREDICTABLE EXPERIENCE

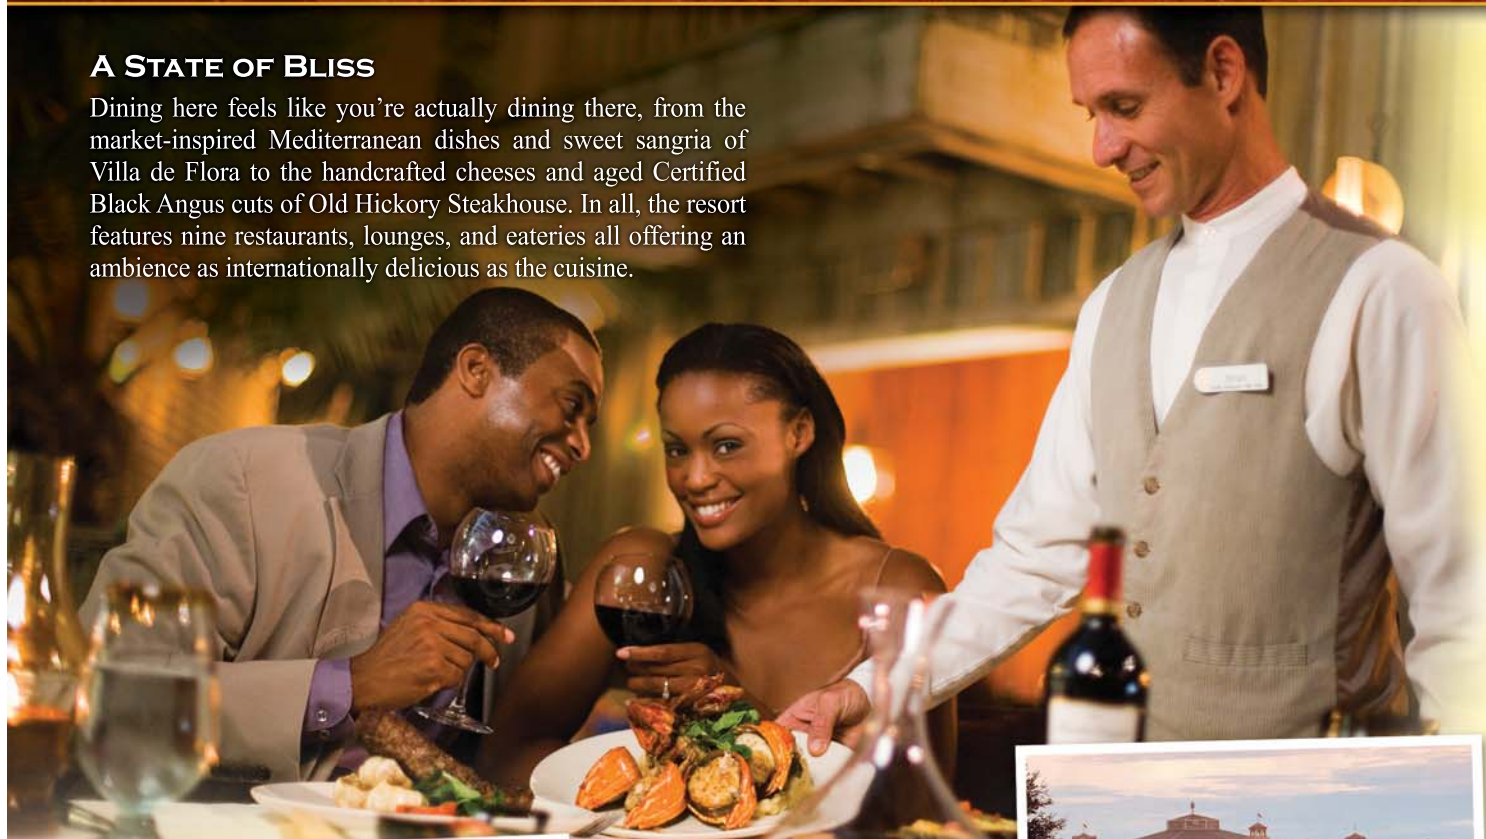

Upon arrival at Gaylord Palms Resort, you realize something is different here. Yes, the size and architecture are astounding, however there is something deeper within the details. A sixty-foot schooner floating in a Key West lagoon. A baby alligator sleeping among the mystical waters of the Everglades. A three-story Spanish fort centering historic St. Augustine. And perhaps the greatest wonder is that it is all under glass. This feeling of refreshing surprise is the last thing you would ever expect from a resort, and yet it will be the first thing you remember about your experience at Gaylord Palms.

# WELCOME TO THE SUNSHINE STATE...

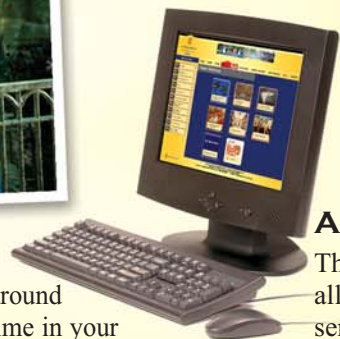

## A STATE OF BLISS

Dining here feels like you're actually dining there, from the market-inspired Mediterranean dishes and sweet sangria of Villa de Flora to the handcrafted cheeses and aged Certified Black Angus cuts of Old Hickory Steakhouse. In all, the resort features nine restaurants, lounges, and eateries all offering an ambience as internationally delicious as the cuisine.

## A STATE OF INNOVATION

With the Best of Florida unfolding all around the resort, why would you ever spend time in your guestroom? We've got just the answer with the iConnect™ in-room computer system. You can blaze the Internet, connect to virtual mapping of all meeting space, get instant information on resort and area attractions, plus request housekeeping and other amenity items to enhance your resort experience. The iConnect in-room system is like having your own personal concierge right at your finger tips.

## A STATE OF EMBRACE

The guest rooms at Gaylord Palms all have one thing in common – a sense of you. You'll feel like the room was designed with your individuality in mind. Colorful details and innovative technology make you feel like you're experiencing something entirely new, and yet elegant furnishings and plush linens usher in the familiar.

## A STATE OF ADVENTURE

Within minutes, you can thrill to the magic and adventure of Central Florida's world-renowned theme parks and attractions. Here, all the big names are your neighbors: Walt Disney World® Resort, Universal Orlando® Resort, SeaWorld® Adventure Park, Discovery Cove®, Gatorland® and many others.

## A STATE OF MOTION

You'll feel energized having so many activities within reach.

Coquina Dunes recreation park offers everything under the Florida sun: two swimming pools (one reserved for adults), beach volleyball, and a challenging 9-hole executive putting course. Plus, there are 50 renowned golf courses, including the Rees Jones-designed Falcon's Fire Golf Club, all located within minutes of the resort.

Kids can stretch their legs and their imaginations at La Petite Academy® Kids Station, where children are treated to their own area within the resort – and all in a safe and fully supervised environment.

## A STATE OF WELL-BEING

Water caressing river rocks. The soft smell of jasmine. The comfort of a whispering wind. The experience at Canyon Ranch SpaClub™ is as soothing to the senses as it is rejuvenating to the soul. From invigorating body wraps, massages, and facial therapies to fitness and group conditioning programs, health and wellness isn't a treatment that ends with your appointment, it's a lifestyle that you will take with you forever.
