LUGGAGE

Luggage tags are being provided to assist you in locating your luggage in the Port Canaveral Terminal. Please write your stateroom number, name, address and number of bags on these tags (e.g. 1 of 2). Remove any old airline or green Disney tags. Attach the new tags to your luggage and place it outside your stateroom between 9:00 pm and 11:00 pm for complimentary delivery to the ship's terminal. Any luggage not placed outside the stateroom by 11:00 pm must be hand carried by the Guest when disembarking the ship. Your belongings will be stored and conveniently located in colored zones, according to stateroom number, for easy recognition in the port terminal. Once you locate your luggage, porters will be available to assist you as you proceed through Customs.

We request that you hand carry valuables such as cash, negotiable securities or other financial instruments, gold, silver, jewelry, ornaments, works of art photographic/video/audio equipment or supplies, laptop computers, and cellular phones.

In accordance with Federal Law, NO fresh fruits, vegetables, plant materials or meats of animal products may be brought back into the United States. Heavy fines may be imposed on guests found with these items. The porters off the ship providing this assistance are an independent company. So, in recognition of this service, it is customary to leave a gratuity.

EFFECTIVE IMMEDIATELY

- No liquids, gels, and/or aerosols are permitted except one clear transparent resealable 1 quart (1 liter) size plastic bag which may contain liquids, gels, and/or aerosols in containers of 3.4 oz. (100ml) capacity or less per container. The contents of the plastic bag must fit comfortably and the plastic bag must be completely closed/sealed and subjected to x-ray inspection separate from the passenger's carry-on bag.
- You may have the items listed below, but you must declare them to TSA at the screening checkpoint in the airport if they are not contained in a clear transparent resealable 1 quart (1 liter) size plastic bag and/or are over 3.4 oz. (100ml).

All other liquids, gels, and/or aerosols may be transported in checked baggage.

Liquids (including beverages), gels, and/or aerosols purchased in the sterile area may be carried onboard the aircraft

While we realize it is customary for Guests to hand carry their alcohol purchases aboard flights, it is now required for Guests traveling by air to pack them only within their checked luggage. The Transportation Security Administration also suggests that all passengers flying through U.S. airports unlock all Checked Baggage. Baggage may be searched at any time and locks may be broken if a physical inspection is required (This will be addressed by airline personnel when accepting Guest luggage). They also suggest removing all unprocessed film and cameras with undeveloped film from your luggage.
